Rev. Tim was absolutely amazing. From the very start of getting in touch with him and his speedy response to the ceremony. He made the process so stress free and made sure to ask for everything we wanted and giving us every piece of material he had to make sure we had the perfect match for us. He allowed us to customize his already beautiful speech. At the wedding he made sure to find where or location was with no problem, allowed us to take our pictures while he filled out his section of paperwork so we didn't have to worry about anything other than enjoying our day of love with our family. He captivated me and my husband with his beautiful words as well as our family who watched and listened. He has a soft spoken voice and made the experience very calming and just beautiful. When my 10 year old cousin spoke he had everyone crying and even rev Tim got emotional. You can tell rev Tim was fully engaged with the ceremony himself and knowing he cared as well made the experience perfect. At the end he explained to us how to go about our marriage license which he made sound so simple and then congratulated us and hugged and kissed us as if we knew him our whole lives. Ig you want someone apart of your wedding who genuinely cares even if it's a small one he will make it feel even more special, if you want someone to marry you who feels like a family friend then rev Tim is the one for you. Thank you rev Tim for making our special day something we will never forget and topping it all off. It was perfect.
